Adventures Offshore is a part of the Scout Association. This is what they say about the Tall Ships Race :-

*Adventures Offshore supports the Tall Ships Race every year because we feel it is a unique opportunity for young people of many nationalities to meet in both a competitive and social environment.*

*There is no doubt that for many this is a milestone event that they talk about for many years. The timing is usually during July & August and breaks down into two race legs, a cruise in company plus delivery and return voyages.*

*The races visit countries as far apart as Russia and Portugal. Participants include vessels from four masted square riggers to 12 metre yachts.*

*Ocean Scout is a 15m purpose built Oyster yacht*

This is what Lowestoft Explorers said on their blog when they took part in the 2013 Cruise in Company :-

*"Had a very, very , very , very good time sailing with Offshore Adventures. Some sailing and some partying. Made lots of new friends who I really want to stay in touch with. Would recommend it to anyone."*

*"There are hundreds of tall ships in the port, and*

*everyone is really kind and helpful, we have got lots of activities planned whilst in Riga including looking around the Tall Ships."*
